DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the specification (Page 7, line 5) is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

Claim Objections

2. Claims 18-39 are objected to because of the following informalities: The phrase "A method" as recited in line 1 needs to be changed as --The method--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 17-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3729

As per claim 17 the phrase "the first and second resistors R_{s1} and R_{s2} " as recited in line 19 renders the claim vague and indefinite. According to claim 17, lines 11-13 and line 17, the first resistor is R_{G1} and the second resistor is R_{G2} . It is not clear whether the first and second resistors R_{s1} and R_{s2} is the same the first resistor is R_{G1} and the second resistor is R_{G2} recited in line 17 or new resistors.

Also, the phrase "connecting an output of the operational amplifier to the first node" as recited in line 22 renders vague and indefinite. According to Figs. 14 and 15 of the claimed invention, the output of the operational amplifier is connected to the second node (302), not the first node (L2). Clarification is required.

Allowable Subject Matter

5. Claims 17-39 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.
